

Dear RCS Customers,

The South Florida Water Management District is rescinding the current District-issued irrigation restrictions for irrigation water use in Lee County. General irrigation restrictions by local cities and Lee County still apply.

Effective June 19, 2020, the current imposed restrictions will be rescinded because of rainfall received in Lee County which began in late May. We appreciate the efforts made to conserve our precious resources and remind everyone to continue those effort made throughout the year.

If you have any questions or need any additional information, please do not hesitate to call our office – 239-495-5805.

Sincerely,

A handwritten signature in black ink, appearing to read "Vincent O. Barraco", with a long horizontal flourish extending to the right.

Vincent O. Barraco
